Subject: Anti bikkie laws.

The Inspector

My name is Mark Botha and I have been living and an Australian citizen since 2003.

I come from a country of dictation and apartheid so I know a bit about what comes after this political career stunt, I do apologise for my rude accusation but there are many parties involved in the criminal world and yes bikers and bikies have a part but not in the way you may think.

For example I saw last year a 1% club kick out two member for just having ice and crack with the hole club coming down on them. The BBQ we get invited to are surrounded with kids and loving parents, nans and pops.

If we as a free and democratic country allow this to happen and not concentrate on the actual criminals doing the crimes and the stealing and violence. We have failed our kids and their kids because these changes for political correctness will take generations of hate and violence the change back and it will be changed back mark my word as it is our human nature to fight for freedom.

All the people it my concern I have spoken to many of them, all walks of life any type of club or organisation, they all say " yes if we have done a crime we will do the time." But to take our dignity and identity away from us is un-Australian. In a week where we remembered the ones that gave their lives so we could live free, it tears my hart out to even see our government thinking of going down the road of dictation and one sided opinion.

I hope my small contribution has not fallen on deaf ears and will make you stop and think even if just for one minute of silence in remembering where we come from and where we going.

Regards

Mark Botha.
