Subject: Proposed bikie laws

I James Sanders of Devonport believe that these laws go against everything we stand for in Australia.

They descriminate between people who ride a motorcycle and those who don't. Those who wear colours and those who were A suit to define what they are and what they do.

I have no criminal record and could be persicuted for no other reason than I want to ride my bike with my mates and catch up for a beer, how un Australian.

I could go on and on but I will let the public decide our fate.

James Sanders
