Subject: Bikie Legislation

To the Inspector, Legislation and Development Review Services,

In response to the bikie Legislation; I totally disagree and am fully against it....

I am a married father of 4 sons, have full time employment and have been a member of a club for 14 years.... I have no criminal record but I am being classed as one because of the colours on my back....

There are good and bad apples everywhere but they are not judged by a few bad ones, so why are we???? We deserve that same respect.... if we've committed a crime, so be it, but to class us all as criminals is unjust and totally against our freedom of rights....

Our diggers and my father who fought in World War 2 fought for this... our freedom!!!!

Some of these clubs have been here 30+ years and there has never been any trouble...

Most of us are family men who work hard, pay our taxes and love our bikes and our brotherhood....

Regards,

Paul Dean .
