Subject: The new laws about the motorcycle club

To whom this may concern.

I strongly disagree with the new laws I am hearing about the motor cycle clubs that maybe put in place.

I Bree-Elle Haycroft Gouda think this is unfair and is discrimination to all Australian citizens as Australia has always been a country that has always been free of freedom of speech and rights, by putting in to place these laws you are going against your own words. My partner is a member of a motorcycle club and he is the most honest, respectful man whom works hard everyday to earn a living and do what he loves, he does not have a criminal record and is not a criminal, he pays his taxes and lives a clean life. Just because he wears the club uniform does not make him any less of man as you or any government employee.

By putting these laws in you are not only hurting these honest hard working men but also their families whom support and care for them.

I believe that everyone deserves a right to be whom they want to be, wear what they want to wear. In stead of targeting honest men please start focusing on the terrorism of other countries and the real criminals whom are doing wrong my our country.

If you wish to contact me I have placed my details bellow.

Thank you for taking the time in reading my email.
