Subject:

I am dead set against the new laws relating to not being able to meet and wear their colours in public. This against rights of freedom of speech and expression. Also the proposed law stating member are not allowed to associate with each other, Is unjust and unfair. Any person who has served their time for any offence is deemed by law to have paid for their crime. These proposed laws are a disgrace and a big attack on the legal rights of Tasmanians.

Royce Harriss
