

10 Whom it may concern  
I Dale Turner am writing to say  
I totally disagree with these laws  
that are being put in place. I  
think they are too strong and too harsh.  
These so called gangs are not gangs  
they are clubs that have set rules  
and regulations just like any other  
club if it be a car club, football  
club or any sporting club and  
these rules are put in place for a  
reason and that is to abide by these  
rules. Most of these are hard working  
tax paying people that go to work  
come home to their families just like  
most hard working people do. They  
have their rights and beliefs the  
same as every other person in the  
world does because they ride motor  
cycles and enjoy riding them solo.

or as a group does not make them  
 criminals. They are proud of who  
 they are and is that wrong No  
 i don't think so They are no  
 different then two football clubs  
 doing what they enjoy doing  
 but do the footy clubs car clubs  
 or any social club have to remove  
 their colours in public answer is  
 No. To take away a persons  
 beliefs and freedom to do what they  
 enjoy doing is wrong and not  
 right there is good and bad in  
 all walks of life so to condemn  
 a group of people who enjoy  
 riding there motor cycles is truly  
 unfair and ~~is~~ unjust

Yours Sincerely  
 Dale Zumer
