Subject: Machete Laws

You don't often get email from [redacted]om.au. Learn why this i nt

To Whom it may concern

Banning a Machete does not solve the problem as it is only a valid tool , while the person using the machete illegally is the problem.
A Machete should be able to be used for agricultural or suitable purposes.

Some people target these knives and loose sight of thge fact **that in the wrong hands** huge numbers of household items can become a weapon,for example a **pencil,** scissors, box cutters just to name a few

It would be sensible if

1. A Machete should not be carried or consealed on a person or item in a public space.
2. A Machete should be safely stored when transporting.
3. No one under 16 years for (arguments sake) to be in
4. Heavy fines for anyone caught with a Machete either on their person or consealed while in a public space.
5. Mandatory imprisonment and fines for those using Machete for unlawful or criminal offence

Hopefully those resposible for any legislation will consider the above.

Yours
Kevin Lonsdale
